

SOFIA ALEMU

Software Developer

Addis Ababa, Ethiopia • +251-960-941-590 • sofiajema12000@gmail.com • Telegram: t.me/Fadhimah

PROFESSIONAL SUMMARY

Software Developer with hands-on experience building web applications using Frappe/ERPNext and WordPress. Strong foundation in backend development, user interface implementation, and workflow automation. Comfortable working in team environments and contributing to real-world projects. Seeking to grow in a role focused on building practical and maintainable software systems.

PROFESSIONAL EXPERIENCE

Junior Software Developer (Internship) — Fineto IoT Products | Feb 2024 – Sep 2024

- Developed and customized web applications using Frappe/ERPNext, supporting business process automation.
- Built WordPress-based websites with functional and user-friendly interfaces.
- Collaborated with team members on UI design and implementation to improve usability and consistency.
- Contributed to workflow improvements that increased team efficiency by approximately 25%.
- Assisted in debugging, testing, and maintaining application features in production environments.
